BARTŁOMIEJ SZAJNA

Front-end Developer

It started accidentally. During my very first lesson of programming at the university I have unwittingly generated an infinite loop which was printing "I am coding!" to the console. Apparently I had no other choice than to code from then on, not that I wanted - I just can not figure out how to get out of this loop yet :)

I am eager to be involved and to contribute to your company's growth. Let us talk about how I can help in creating amazing projects and achieving your goals.
